

## 2011-2012 Singles, Pairs, Ice Dance Program Requirements

As of April 4, 2011

Please find attached charts representing summary/overviews of the proposed program content requirements for Singles, Pairs and Ice Dance for the 2011-2012 season. Changes to program requirements are highlighted in red with either a strikethrough (deleting an existing criteria) or an underline (adding a criteria). Changes that occur as a result of normal season rotations have not been given such indication.

In addition to the program changes outlined in the attached charts, there were other proposals and communications that may impact construction of programs. The most important of these proposed changes are listed below

Information on Junior and Senior categories is announced by the ISU. Please monitor the ISU website for the publication of this information. ([www.isu.org](http://www.isu.org)).

These requirements have now been approved by the Skate Canada Board of Directors. The changes since the February release of this information are summarized below:

- Pre-Juvenile Pair requirements added - The jump combination has been removed and the time requirement has been announced as 2.5 minutes.
- Novice Dance – word “different” removed from lift description for clarity
- Novice Women Free Program – Note that the note regarding levels for spiral sequences has been left in ((the spiral sequence may have only Level 1 or Level 0 options)).

### **SINGLES SKATING**

Remove fall deduction during elements for competitive categories up to and including Novice Singles. Deduction will still apply when a fall occurs outside an element.

#### **Bonus:**

- Juvenile singles: Each jump identified in the program as a double Axel or any jump of higher base value will result in a technical bonus of one point
- Pre-Novice singles: Each jump identified in the program as a ~~triple toe loop~~ double Axel or any jump of higher base value will result in a technical bonus of one point
- Novice singles: Each jump identified in the program as a triple toe loop or any jump of higher base value will result in a technical bonus of one point
